

## **CHAPTER – IV**

### **STAFF AND LABOUR SUPPLY**

Since the creation of the Ranchi West Division generally a Deputy Conservtor of Forest of IFS cadre has been in charge of the Division. Generally one or two Assistant Conservator of Forest remain attached to this Division. At present there are four ranges in this Division namely Burmu, Lohardaga & Burmu Ranges of this Division. There are in total 13 beats & 108 sub beats in this Division.

As described earlier, the Division is overlapped at present by Ranchi Afforestation, social forestry Divisions, Ranchi State Trading Divisions, Lohardaga & Ranchi, Sone soil Conservation Division, Daltonganj, MFP Division Ranchi, Tiger project Palamau and coordinator cash crop either completely or partially. In addition to the territorial staff other Range Officers, foresters, forest guards are posted at present as per requirement of the overlapping Divisions.

#### **Ranchi West Division Forest Distribution**

In the present form of this Division an area of 9.41 sq. km comes for each forest guard which is almost adequate for a forest guard but if the situation is analysed it requires an urgent need for a change. The smallest sub beat is phulsai which omprises only 0.904 sq. km of forest. The following 20 sub beats are very small and their re-organisation is required.

| Sl. No. | Name of the sub beats which comprise the area less than 1,000 Acres | Area   | No. of Forest Guard |
|---------|---|--------|---------------------|
| 1       | Phulsuri  | 208.58 | 4                   |
| 2       | Akasi   | 300.03 | 1                   |
| 3       | Brambay   | 253.46 | 3                   |
| 4       | Mandar  | 330.53 | 5                   |
| 5       | Badla   | 425.72 | 3                   |
| 6       | Kasisdih  | 530.82 | 4                   |
| 7       | Ghaghara  | 627.16 | 7                   |
| 8       | Bhandara  | 633.81 | 7                   |
| 9       | Mahuajari   | 590.89 | 7                   |
| 10      | Jonjori   | 662.02 | 3                   |

|    |            |        |    |
|----|------------|--------|----|
| 11 | Nari       | 700.76 | 4  |
| 12 | Kaskoma    | 730.67 | 4  |
| 13 | Arangi     | 823.36 | 4  |
| 14 | Beyasi     | 839.36 | 8  |
| 15 | Jhaljamira | 954.60 | 3  |
| 16 | Chanho     | 870.82 | 8  |
| 17 | Mandar     | 904.11 | 13 |
| 18 | Mungo      | 942.69 | 3  |
| 19 | Kundo      | 989.41 | 6  |
| 20 | Ray        | 991.89 | 3  |

In contrary to this there are 10 sub beats which are very large in area and requires an urgent need of splitting. The biggest sub beat is jamti which comprises an area of 33.3 square km as below :-

|    |               |         |
|----|---------------|---------|
| 1  | Jamti         | 8227.28 |
| 2  | Jori          | 5221.34 |
| 3  | Ghanghara     | 5248.61 |
| 4  | Rehaldag      | 5074.68 |
| 5  | Tendar        | 5008.83 |
| 6  | Bahahgara     | 4731.13 |
| 7  | Berikenka     | 4545.13 |
| 8  | Nirasi (east) | 4333.60 |
| 9  | Nirasi (west) | 4332.00 |
| 10 | Morbani South | 4296.00 |

The resolution for the village forest protection committee has been enunciated and the forester has to become the secretary of VFC an average 35 of forests will come under a forester. The average will come even more than this for beat foresters of Lohardaga and Burmu Ranges. For example there are 68 forest in Mandar beat & 48 forests in Kuru beat. At present the distribution of sub-beats in the Ranchi West division is given below.

**Table of Range, beat & sub beat of the Ranchi West Division**

| Sl. No. | Name of the Range | Area in acres | Name of the beat | Area in acres | No. of sub beats | Average areas of sub beat |
|---------|-------------------|---------------|------------------|---------------|------------------|---------------------------|
| 1       | Burm              | 63,336.11     | 1. Burmu         | 17,527.31     | 9                | 1947.48                   |
|         |                   |               | 2. Khelari       | 26,977.98     | 11               | 2452.54                   |
|         |                   |               | 3. Mandar        | 18,832.32     | 14               | 1345.20                   |
| 2       | Lohardaga         | 66643.81      | 1. Lohardaga     | 19,971.36     | 12               | 1664.28                   |
|         |                   |               | 2. Kuru          | 15,497.26     | 11               | 1408.89                   |
|         |                   |               | 3. Pesrar        | 3,335.19      | 12               | 2611.27                   |
| 3       | Adar              | 45,159.98     | 1. Adar          | 13,104.99     | 7                | 1872.07                   |
|         |                   |               | 2. Tendar        | 17,448.56     | 5                | 3480.71                   |
|         |                   |               | 3. Manhepati     | 14,606.90     | 6                | 2434.48                   |
| 4       | Banari            | 76,163.04     | 1. Banari        | 21,670.78     | 6                | 3611.80                   |
|         |                   |               | 2. Netarhat      | 23,311.57     | 7                | 3330.22                   |
|         |                   |               | 3. Jamti         | 31,180.69     | 8                | 3897.59                   |
| TOTAL   |                   | 2,51,302.92   |                  |               |                  |                           |

| Area  | Burm     | Lohardaga | Adar     | Banari   |
|---|----------|-----------|----------|----------|

## **Supply of the labour**

All the working of the different divisions of the forest department functioning in the jurisdiction of the Ranchi West Division is labour based. Some works like cutting of bamboo, marking & felling of trees, saw mills etc. require skilled labour who are abundant in this area. In fact the rise of population & lack of planning have increased the no. of landless labour limits. The forest department has failed to employ them.

Although different employment oriented schemes of State and Central Government have been launched by other departments also still all don't get employment. It causes duress effect on forests due to which illegal felling, poaching & no. of headloaders are increasing every year. In other weekly markets along with Lohardaga south Firewood, poles, logs, fourfolds (chaupahal) etc. are brought in plenty for sale. On other days these headloaders may be seen in remote villages carrying the forest produce or entering into the forest with axe.

## **Daily Labour**

The work of logging and afforestation etc. are very technical. It is comfortable for the subordinate staff to indulge the same person in such technical works. At present chowkidars, depotmunshi, coupe munshi, cattle guards are continuously employed for long periods. After understanding their necessity the feeling of unionism has developed and they stand to keep their claim for employment against the vacant post and for this they organize demonstrations, strikes litigation etc. All the divisions falling in the jurisdiction of the Ranchi West Division are facing this problem.

## **Population and Employment**

The details book on the census of 1991 of the tract has not been published yet. The detailed book on the census of 1981 which is available deals with the old Ranchi district which has Gumla in 1983. Ranchi west division comprises parts of these three districts along with a small part of the Palamau district also. The population of Ranchi West division may be extrapolated for 1989 on the basis of the census of 1991 which may be deemed as its representative.

Class.
