2. Background

- 2.1 (a) Small time Micro Enterprises in the area of Forestry and Foods in India is a movement. It has been observed that a significant section of forestry is involved in food processing. To upgrade existing forestry in the country and **provide safe, healthy & hygienic food for all the consumers.** FSSAI, with the support of state government bodies, **has framed benchmarks for hygiene and sanitary conditions.** It is aimed at training and capacity building, technological inputs, as an integral part of this pillar. Food Safety is a shared responsibility. The classroom FoSTaC training has to be translated into implementation with impactful visible difference to ensure sustainability and behaviour change impact.
- (b) The Sector of **forest produce based foods** is **unorganised** and **needs to develop confidence among customers in terms of proper standards, hygiene, attractive packaging, penetrating power** etc. Further, they do not have **modern technologies, funds** and **market opportunities** to push their products into the main market. Yet they are indispensable as they cater to a large market in the country and are a source of livelihood generation in rural and Urban parts of India. Hence, the challenges of this sector have to be addressed and regulated properly. Organising these businesses and upgrading them to the required standards will be extremely important for economic growth of the nation. As the **micro-enterprises in Forestry sector are mostly involved in manufacturing of indigenous foods, they need to be promoted to produce healthy, fortified and safe food products, Natural food Products** which can contribute in **improving consumer health.** Monitoring and regulating of these businesses will become easier once they implement the basic food safety requirements in a sustainable manner.
- (c) **About FoSTaC**
Food Safety Training & Certification (FoSTaC) is a large scale training programme of Food Safety & Standard Authority of India, initiated with the aim to spread education and raise awareness on Food Safety & Standards Act, Rules & Regulation among food business operators.

(d) Objective

- Creating an improved environment of **self-compliance to FSS Act, Rules and Regulations by responsible Food Businesses.**
- Bringing a **behavioural change** and **inculcating a culture of Food Safety in the country.**

e) FOOD SAFETY TRAINING AND CERTIFICATION:

FSSAI mainly deals in Certification of food products through lab testing. FSSAI has been established under Food Safety and Standards, 2006 which consolidates various acts & orders of food related issues in various Ministries and Departments. FSSAI has been created for setting standards for articles of food and to regulate their manufacture, storage, distribution, sale and import. FSSAI is a single reference point for all matters relating to food safety and standards. FSSAI and the State Food Safety Authorities enforce various provisions of the Act.

As far as Forest products are concerned, **FSSAI initiated the Food Safety Training & Certification (FoSTaC) programme in 2017.** This is aimed at **creating a pool of food safety supervisors, who are trained in good hygiene and manufacturing practices** as per requirements in Food Safety and Standards Licensing and Registration Regulations, 2011. To address training needs for all types of food businesses at various levels in the food system, a total of **seventeen courses at three levels, basic, advanced and special** have been developed.

FoSTaC is a large scale training programme of Food Safety & Standard Authority of India initiated with the aim to spread education and raise awareness on Food Safety & Standards. **FSSAI is working through 148 training partners for the same .**

17 types of competency based certification programmes are available under FoSTaC. The **duration of each course is 8 to 12 hours spreading over a period of 1 to 2 days.** These **courses are offered at three levels: Basic, Advanced & Special** and **mainly addresses working professionals in the food sector.** Special categories of courses are product specific- mainly for high risk foods.

The courses are currently delivered through a wide network of training partners. Training is conducted in a cascading mode, where **trainers** are first trained and then they train hundreds of **food safety supervisors.** These **food safety supervisors in turn train food handlers.**

FoSTaC is facilitating in training inputs through its training partners for SHGs etc as per the demand by the concerned departments but expenses are to be borne by the department along with involvement of State Food Safety Department. They have done **recently a course in Maharashtra for SHGs for Mango pulp, Pickle, Fish dry spices etc.** They coordinate Master Trainers in this field as prepared by them.

There are **benefits of imparting FoSTaC training to members of Self Help Groups (SHG), Business units and individuals who are engaged in production and sale of minor forest produce based foods.**
