Title:	16S Ribotyping and classification of endophytes of finger millet (Eleusine coracana L. Gaertn.) genotype JWM1
Publisher:	Birsa Agricultural University, Ranchi, Jharkhand-6
Language:	en_US
Type:	Thesis
Pages:	53
Agrotags:	null
Keywords:	16S Ribotyping and classification of endophytes of finger millet (Eleusine coracana L. Gaertn.) genotype JWM1
Abstract:	The literature in the public domain shows that all the species of bacillus identified in the present study produce substances of agricultural and commercial importance. Such endophytes have never been reported in finger millet before. The virtues of finger millet which make it hardy crop may be attributed to these endophytes. The actual role of each endophyte needs to be studied especially with respect to the white seeded genotype JWM 1.
Description:	16S Ribotyping and classification of endophytes of finger millet (Eleusine coracana L. Gaertn.) genotype JWM1
Subject:	Biotechnology
Theme:	16S Ribotyping and classification of endophytes of finger millet (Eleusine coracana L. Gaertn.) genotype JWM1
These Type:	M.Sc
Issue Date:	2017
